

OPENING UP OF BOARD OF TRUSTEES MEETINGS

(Board of Trustees Meeting, February 8, 1976)

A discussion took place...with regard to the question of opening the meetings of the Board of Trustees to interested members of the faculty and student body. It was agreed that (1) those parts of regular meetings of the Board of Trustees which were not executive sessions would be open to interested observers, (2) that those attending in this capacity would be passive listeners and not participants in the meetings, and (3) that needed steps would be taken to assure adherence to this latter rule.
