

1998 United States Virgin Islands

STATISTICAL DIGEST

Issued September 2000

EASTERN CARIBBEAN CENTER, UNIVERSITY OF THE VIRGIN ISLANDS

FOREWORD

Some years ago, representatives of statistical offices of the Insular Areas of the United States met at a meeting at the East West Center. It was then suggested that each of the areas should begin a series of statistical yearbooks for its respective area. At the consistent urging of Dr. Michael Levin of the Population Division of the Bureau of the Census, we are finally able to produce such a document. This publication has only been made possible throughout the substantial support of the Office of Insular Affairs, Department of the Interior, particularly with the assistance of its director, Allen Stayman, and economist Richard Miller.

In this second effort, we have aspired to compile a comprehensive set of statistical tables covering such topics as population, vital statistics, education, labor force and employment, household and personal income, crime, tourism, housing, motor vehicles, finance and revenue and budget. We hope that this will meet many of the needs of the local public and nonpublic sectors, as well as federal officials and off-island businessmen who constantly use these data.

We also urge users of this document to share with us their comments on how we might improve the usefulness of the publication in the subsequent series.

Frank L. Mills
Director

1998 United States Virgin Islands

STATISTICAL YEARBOOK

Issued September 2000

Explanation of Symbols

The following symbols and abbreviations are used in tables throughout this report:

“-“	Zero or a percent that rounds to less than 0.1.
“...”	Not applicable/Not available
D	Withheld to avoid disclosing figures for individual establishments. Data are included in higher-level totals.

Chapter 1

Population
